# 26<sup>th</sup> STREET SPEECH LANGUAGE PATHOLOGIST

## Your role as a Speech-Language Pathologist:

- School based SLP's are part of the education team working with students within the school environment and on academically based tasks.
- Conduct comprehensive evaluations to help identify goals and skilled speech therapy needs as part of the individual's education plan or as a medically based service
- Develop individualized treatment plans and goals for each client based on their unique needs and abilities
- Provide one-on-one therapy sessions to help clients improve their speech, language, social, and feeding skills
- Provide therapy one-on-one or in a small group, and/or teach and train classroom and residential staff to carryout goals
- Provide one-on-one therapy sessions to help clients improve their speech, language, social, and feeding skills
- Educate families, staff, and the community on the use of augmentative and alternative communication (AAC) to support a child's communication skills.
- Collaborate with other members of the healthcare team, such as doctors, teachers, and pediatric therapists, to ensure our clients receive comprehensive and coordinated care
- Keep detailed records of progress and adjust treatment plans as needed
